3 Panel Rope Challenger

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

If you have a playground that is visited by a lot of children each day you will need high-capacity equipment that can accommodate several at one time. The 3 Panel Rope Challenger features three sections of rope wall climbers and three curved rock panel climbers that join together at the center to create one three-sided composite structure. Kids can easily move from one part to another without touching the ground, and can even climb over the tops of the net climbers. Having two different styles of climber means that children are tested in different ways. The rope climbers are easier, due to their vertical surfaces and large stepping spaces, but kids will feel proud when they complete the twisted rock climbing panels. Climbers are a great way to aid in the development of muscle strength, coordination, motor skills, and even social skills.

Product Specifications

Price: \$7,436.⁰⁰

Model Number: PCH004

Age Range: 5-12 years

Fall Height: 84"

Product Type: Climbing

Safety Zone: 30' 5" x 28' 11"
