Looking like something straight out of a sci-fi movie, the 3 Panel Cyclone Challenger invites challenge and creativity in young minds. It may appear impossible to climb on at first, but children will quickly discover the joy of climbing walls on a curved and twisted surface. Kids will love the colorful structure and it will inspire hours of climbing as they attempt to decipher the best way to scale the playground equipment. This novel play apparatus encourages children to develop their balance using carefully placed hand and foot holds just the right size for small hands and feet. It is also going to help with the development of hand-eye coordination too as when a child needs to move their h
