

Product Description

This seaside-themed play structure invites children 2-12 to take a trip to the ocean any time of day through a number of exciting panels, climbers, and slides. Accommodating up to 81 children, this playground features many recognizable sights from the ocean, including a pelican, fishing pole, and more. With a thatched roof covering the center of this play structure, children also have the option to beat the heat and relax in the shade — just like on vacation. Perfect for schools, churches, and parks, this eco-friendly playground measures 38 feet by 22 feet and requires a use zone of 50 feet by 35 feet.
