If your existing Adaptive Swing set can't keep up with the high demand, the 8 feet High Elite Arch Post Adaptive Swing - Add a Bay lets you expand. This simple expansion kit extends your existing swing set by making space for another high-capacity adaptive seat. With one more swing available, kids with disabilities or simply younger kids needing safety get more time in the air and less time watching from the sidelines. There'll be fewer meltdowns over whose turn is next. You can choose to add just the bay or get the full set that includes a High-Capacity Adaptive Seat with belts for extra support. The kit comes with all the hardware and extras needed for installation to get your new swing ba
