

Product Description

The square Waterproof Cantilever Umbrella is available in a 13-foot or 16-foot size. Its waterproof fabric propels water and keeps the space underneath the umbrella dry. This, along with its off-center post, makes this umbrella a great choice for shading tables and benches.

Our waterproof umbrellas are available in your choice of an 8-foot or 10-foot entry eave height. What's more, these commercial umbrellas come with our Glide Elbow™ fabric removal attachment. This attachment makes it faster to remove the fabric before bad weather such as hurricanes or heavy snow.
