PRO PLAYGROUNDS

The Play & Recreation Experts

ABOUT US

At World Klass Play, we believe play is more than just fun — it's an essential part of learning, growth, and community. Our mission is to design and manufacture playgrounds that inspire imagination, encourage active lifestyles, and bring people together. From small neighborhood parks to large-scale community installations, we create play spaces where memories are made and friendships are built.

With decades of combined experience, our team understands that every project is unique. That's why we offer a wide range of playground solutions, from our industry-leading Klassic Kwik Ship program for fast turnaround to our fully customizable Klassic Play Kustom designs for one-of-a-kind installations. We work closely with schools, parks, HOAs, daycares, churches, and municipalities to ensure each playground meets the specific needs of the children and communities it serves.

Every design meets or exceeds safety standards, and our industry-leading warranties give you confidence that your investment will provide years of safe, active play.

At World Klass Play, we're more than playground manufacturers — we're partners in creating joyful, engaging, and inclusive spaces where kids can dream, explore, and grow.

LEADER IN HEALTH & SAFETY

At World Klass Play, safety, quality, and child development are at the core of everything we do. We recognize that children's bodies are still growing and are especially vulnerable to harmful substances, which is why we maintain strict standards for the chemical content of every material used in our playground equipment. Our commitment goes beyond safety—we design our products to create secure, engaging environments where kids can play naturally, stay active, and thrive.

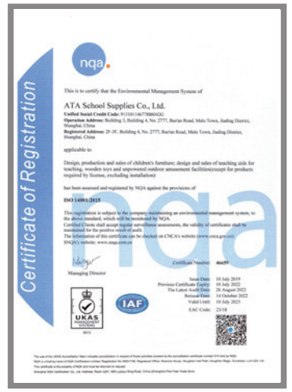

Our structures are built to handle high-traffic spaces like kindergartens and daycares, while prioritizing thoughtful design to minimize collision risks and other potential hazards. By addressing both the physical and emotional well-being of children, we create play areas that support holistic development.

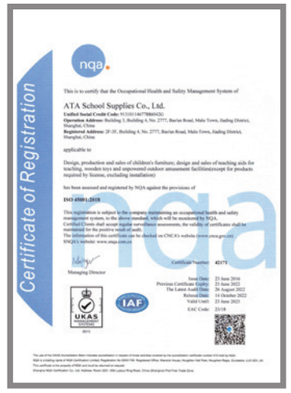

At World Klass Play, we believe children are the hope and future of our world. That's why we are dedicated to providing safe, green, and innovative learning environments where they can grow and explore with confidence. For over 30 years, this has been our guiding principle—and we look forward to continuing this mission for many years to come. Together, let's create brighter futures for every child.

Green KINDERGARTENS

SUSTAINABLE & ENVIRONMENTAL PROTECTOR

World Klass Play has successively obtained multiple certificates that comply with international standards, such as ISO9001, ISO14001, ISO45001, FSC and China Green Product certification, marking World Klass Play strategic ability and determination to adhere to sustainable development!

Implement the concept of eco and quality, integrate global advanced education concepts into the DNA of World Klass Play products with the eyes of the world, and aspire to provide green, eco, and high-quality products for children around the world. Help children explore the world with peace of mind and experience a beautiful and happy childhood!

THE MAKING OF A WORLD KLASS PLAY SYSTEM

Quality you can see, value you can measure

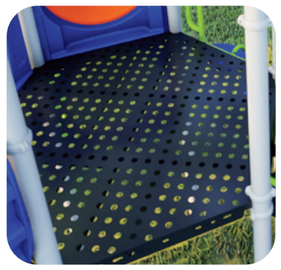

ROTOMOLDED PROCESS

1: Quality materials: Selected high-grade LLDPE raw materials, linear low density polyethylene, impact resistance, cracking resistance, heat/cold resistance, acid, alkali and organic solvent resistance, etc., perfectly adapted to various harsh outdoor environments.
2: Flexible design: not limited by size/pattern/color/thickness, designers can freely play and easily meet ideal expectations.
3: Eco & Safety: one-time molding, no scraps, no waste, non-toxic and odorless.

CLAMP ASSEMBLY

1: Clamp design: abandon the common phenomenon of only screw fixing, which is prone to loosening and shaking over time. The clamp design is stable and firm.
2: High quality metal: strong stability, burst resistance, cracking resistance, rusty resistance and fine polished, no corners or sharp edges, ensure safety in daily use.
3: Convenient assembly: "One loop, one clamp" closed-loop fastening. Simple assembly, convenient maintenance.

DECK/STAIRS

1: Selected Metal: High strength cold rolled steel flat, structurally and mechanically stable, corrosion-resistant, weather resistant, safe and eco, suitable for outdoor use.
2: PVC coating: After professional technical treatment such as gluing, preheating, PVC coating, and high-temperature curing, the steel deck has improved its anti slip, anti wear, anti static, and anti crack properties, making it new over time.

TUBULAR POST

1: Thickening material: fabricated of 3.5 in. outside diameter, 13 gauge galvanized steel tubing, making it more secure and safe.
2: Two mount types: Inground mount and surface mount as needed.

QUALITY POWDER COATING

1: High-end technology: To avoid problems such as rust and aging of steel tubes, we use high-end hot dip galvanizing technology combined with high-quality outdoor powder coating to extend the service life!
2: Craftsmanship process: Galvanized tubes require a total of 13 processes, including water washing, oil removal/impurity removal, and electrostatic spraying. Ensure smooth and flat surface, rust and corrosion resistance, and long-term durability.

PROFESSIONAL WELDING

1: Mature craftsmanship: Senior craftsman meticulously works, with even welding joints and careful polishing, with no burrs, incomplete penetration, or porosity overall.
2: Safety first: The welding joints are stable, firm, and smooth, strictly ensuring product safety.

Klassic Play KwikShip

Klassic Play KwikShip

At World Klass Play, we take pride in setting ourselves apart with our industry-leading Quick Ship options with our playgrounds, designed to get your playground up and running faster than ever. While many suppliers take weeks or even months to deliver, we offer high-quality playground equipment that ships in just 3-5 days after your order is placed. This means you can meet tight deadlines without the frustration of long wait times.

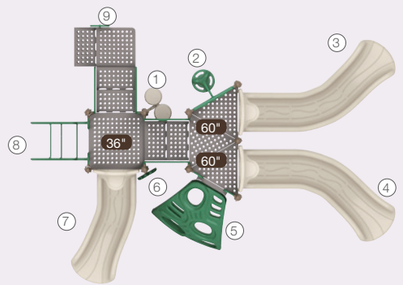

What truly makes our Quick Ship program exceptional is that we don't sacrifice quality for speed. Unlike competitors, we uphold the highest standards of craftsmanship, using durable materials and precision engineering to ensure every structure is built for long-term performance, safety, and fun. Whether you're outfitting a new park or school, upgrading an existing play area, or meeting an urgent project deadline, our Quick Ship selection provides the perfect blend of efficiency and reliability. You can mix and match with our ancillary products like our swings, climbers, free standing slides, music and art to create a fully customized, engaging play environment tailored to your space and community needs. With World Klass Play, getting a high-quality, personalized playground has never been easier or faster!

KlassicPLAY Kustom

Our Klassic Play Kustom line is all about turning your vision into a one-of-a-kind playground that perfectly fits your space, budget, and community needs. Whether you're planning for a school, park, daycare, church, HOA, or neighborhood space, we work with you to design a play environment that's as unique as the kids who will enjoy it. From themed adventures to modern, sleek layouts, our design team brings creativity and experience to every project, ensuring each structure is both exciting and safe for children of all abilities.

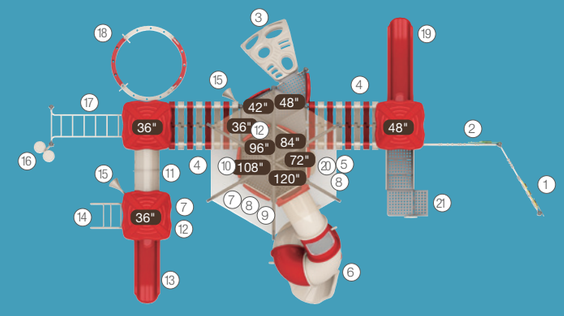

With endless component choices — slides, climbers, bridges, swings, sensory panels, and more — you can create the exact play experience you want. Our playgrounds are built with premium materials like galvanized steel and high-density polyethylene (HDPE) for long-lasting durability and low maintenance. Choose from a wide range of colors and styles to match your vision, and rest easy knowing every design meets or exceeds safety standards. Backed by our industry-leading warranties, Klassic Play Kustom playgrounds are built to inspire imagination, encourage active play, and create lasting memories for years to come.

Limited Warranty

World Klass Play Limited Warranty
World Klass Play warrants its products against structural failure due to defects in materials and workmanship for the warranty periods and material categories prescribed below.

Lifetime Warranty
Lifetime Limited Warranty on all aluminum posts, stainless steel fasteners, clamps, beams, and caps against structural failure due to corrosion/natural deterioration or manufacturing defects, and on steel posts against structural failure due to material or manufacturing defects.

15-Year Limited Warranty
On all steel arches, all plastic components, all aluminum and steel components not covered above, climbers, outdoor musical instruments, decks, and coatings (except Chain Ladders and Swing Chain) against structural failure due to material or manufacturing defects.
World Klass Play offers a 15-year warranty on all hot-dipped galvanized or stainless steel parts and high-density polyethylene (HDPE) panels.

10-Year Limited Warranty
On PVC coating against structural failure due to natural deterioration or manufacturing defects.

On concrete products against structural failure due to natural deterioration or manufacturing defects. Does not cover minor chips, hairline cracks, or efflorescence.

8-Year Limited Warranty
On climbers and climbing cables against defects in materials or manufacturing defects.

5-Year Limited Warranty
Cable connections, cables, and mallets against defects in materials or manufacturing defects, and on polycarbonate panels against defects in materials or manufacturing defects.

Our 5-year warranty on shades covers protection against any manufacturer defect or malfunction that may arise during the specified period, including shade structure moving parts, cables, and materials not specifically listed elsewhere.

3-Year Limited Warranty
On all other moving parts, including all swing seats and hangers, Mobius climber handholds, Chain Ladders, Swing Chain, trolleys and bumpers, Coil Spring (including gliders), belting material, resistance mechanisms, seesaws, etc., against failure due to corrosion/ natural deterioration or manufacturing defects.

2-Year Limited Warranty
On all moving plastic or metal parts, rubber membranes, sunshades, or sail solutions not falling into another category above.

Special Clause:
The environment near a saltwater coast can be extremely corrosive. Some corrosion/deterioration is considered normal wear in this environment. Product installed within 500 yards (457 meters) of a saltwater shoreline will only be covered for half the period of the standard product warranty, up to a maximum of five years, for defects caused by corrosion. Products installed in direct contact with saltwater or subjected to salt spray are not covered for corrosion-related defects.

General Terms:
This warranty does not include cosmetic issues or wear and tear from normal use, or misuse/abuse of the product. It is valid only if the play structures and/or equipment are erected in accordance with World Klass Play installation instructions and maintained according to the maintenance procedures provided by World Klass Play.

Buyer Remedy:
If any products prove defective or non-conforming under normal use and within the warranty periods listed above, Buyer must promptly notify World Klass Play in writing. World Klass Play may inspect the alleged defect at the Buyer's site or at its own facility. Buyer shall not return products unless authorized to do so. Authorized returns must be properly packaged and shipped prepaid and insured, at the Buyer's expense. Upon verification of warranty coverage, World Klass Play may, at its sole discretion, repair defective products or replace them free of charge. Labor costs for removal or installation are not covered.

Limitations:
All warranty periods begin on the date of World Klass Play's invoice. Repaired/replacement parts are warranted only for the remainder of the original warranty period. Warranties extend only to the original Buyer/end user for products purchased from World Klass Play or an authorized reseller and are not transferable.

Warranties apply only to products installed and maintained according to World Klass Play's instructions. They do not cover:

- Cosmetic damage or flaws occurring under normal use (surface scratches, minor chips, hairline cracks, dents, marring, efflorescence, color fade, discoloration, corrosion/rust, fraying, or warping of recycled plastic lumber)
- Products modified, altered, or repaired by unauthorized parties
- Products not used as designed or intended, or misused
- Products with non–World Klass Play parts added or substituted
- Products removed from their original location and reinstalled elsewhere
- Products damaged due to excessive wear, vandalism, abuse, negligence, environmental factors, extreme weather, or acts of God

World Klass Play does not warrant that any particular color will remain available for a specific period and reserves the right to discontinue colors at its discretion.

THE FOREGOING LIMITED WARRANTY IS THE SOLE AND EXCLUSIVE WARRANTY FOR SELLER'S PRODUCTS, AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED.

ISO 9001/ISO 14001

Industry certification processes issued by the International. Organization for Standardization. ISO 9001 is used to measure,manufacturing standards and to certify company compliance with quality management systems covering design, development, production, installation, inspection and testing. ISO 14001 also known as the green certification, specifies the requirements of an environmental management system (EMS). An EMS is a systemic approach to handling environmental issues within an organization. World Klass Play is ISO 9001 and ISO 14001 certified.

ASTM

ASTM International is an independent and world renowned developer of technical standards utilized in testing a multitude of products. ASTM's F15.29 committee met regularly for over a decade in the continual development of the F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use. The original standard, F1487-93 was published in 1993 and subsequently replaced by the current version F1487-17. Published February 2017. Throughout this catalog we state ASTM Use Zones in dimensional form per the ASTM F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use, which are minimum dimensions. Consideration should be given to the number of users and their circulation patterns.

CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication several times since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

CSA

The Canadian Standards Association is an independent and renowned developer of technical standards utilized in evaluating a multitude of products. The CSA standard on Children's Playspaces and Equipment 1990 edition was revised in March, 2020 and is now officially CAN/CSA-Z614:20, entitled Children's Playground Equipment and Surfacing. The CSA standard is significantly harmonized with the ASTM F1487-11 standard.

TÜV America

Product Service, an international testing and certification organization is a European Union Notified and Competent Body providing services which include product testing and certification. The highly visible TÜV-Mark demonstrates to customers that safety testing and certification has been completed by an independent third-party organization. The "S" pictogram combined with the statements "Safety tested", "EN 1176" and "Production monitored" indicate that these products have passed a comprehensive testing procedure based upon the European Harmonized Standard for Commercial Playground Equipment, EN 1176 and that the World Klass Play production plant is regularly monitored by TÜV. Contact your international World Klass Play distributor for complete EN 1176 compliance details.
